

Nencki Institute of Experimental Biology

A visit of young people from the Adamed Group Foundation at the Nencki Institute

2018-07-23

On July 19th, 2018, 25 participants of the scientific camp for talented youth, organized by the Adamed Group Foundation under the Adamed Smart UP program, visited the Nencki Institute. The visits at the labs were organized by the Marcell Nencki Foundation for Support the Biological Sciences. It was aimed at familiarizing young people with the research carried out at the Institute. The program

included:

Laboratory of Cytometry (Katarzyna Piwocka, Julian Swatler)- *Why is flow cytometry an indispensable research technique in modern biology?*

Laboratory of Brain Imaging (Anna Antosz, Jacek Matuszewski, Jan Szczypiński, Marek Wypych) - *How does our brain work?*

Laboratory of Imaging Tissue Structure and Function (Małgorzata Całka, Artur Wolny) - *What can we see in the cell?*
