

Nencki Institute of Experimental Biology

Bilateral Scientific Meeting organized by the Nencki Institute and the University of Social Sciences and Humanities

2014-11-28

We are pleased to invite everyone interested in studies linking the neurobiology and psychology to participate in BILATERAL SCIENTIFIC MEETING organized by the Nencki Institute and the University of Social Sciences and Humanities. The meeting will take place on December 9, 10.30 am-14.45 pm, the conference hall, Neurobiology Center of the Nencki Institute. The aim of the meeting is to present results of common investigations performed by the two institutions.

The Program involves:

1. interdisciplinary presentations prepared by doctoral students working under supervision of professors from the two cooperating institutions,
2. two special lectures given by Prof. Andrzej Nowak

and Dr. Ewelina Knapska,

3. visits in Laboratories where the doctoral studies are performed
