Day of the Aqatic Insects

2016-08-23

On 19th August, 2016 the educational event entitled DAY OF THE AQATIC INSECTS took place at Hydrobiological Station in Mikołajki. Guests could take part in lectures, films, as well as in the field and microscopic classes. In addition, a photo exhibition “Polish Prey Birds” has been available for participants. The exhibition is open for viewers till the end of September in a historic building of “Akwarialnia”.
