

# Nencki Institute of Experimental Biology

## Holders of the Polish Children's Fund scholarships at the Nencki Institute

2014-03-10

Workshops were prepared in two thematic blocks: biochemical and behavioural. All workshop participants were very pleased with the experience and claimed to have broadened their knowledge and become familiar with modern equipment by being able to independently conduct the experiments and use their practical skills. The visit was organized under an project BIO-IMAGing in research INovation and Education (BIO-IMAGINE).
