

Nencki Institute of Experimental Biology

IXth Training for people taking care of experimental animals

2013-11-29

The initiative to organize such meetings began in November 2007 after the entry into force of the Regulation of the Minister of Agriculture and Rural Development dated 20.06.07 (Journal of Laws No. 121, item. 835), according to which persons in charge of animals are required to undergo specialized training. So far, training courses organized at the Nencki Institute have been attended by 513 participants from many breeding and experimental units in Poland, and registered by the Ministry of Science and Higher Education.

This year's session was attended by 89 people (including 5 free listeners) from all over Poland (Warsaw, Białystok, Krakow, Brwinów, Jabłonna, Wrocław, Olsztyn, Mielec, Proszowice, Gdańsk, Toruń, Poznań, Szczecin, Krosno). The final exam

was successfully classified by all participants.

Sponsors of the Schooling were the ANIMA and BMT companies.
