## Laureate of the "HOMING PLUS" programme of the Foundation for Polish Science

2013-03-04

---

The main purpose of the HOMING PLUS Programme is to encourage young Polish and foreign researchers, who work abroad, to develop their careers in Poland. Dr. Meyza will receive a fellowship and a financial support to carry out the project and to secure participation of 2 newly hired students. The total budget of the project for the next two years is 324 thousand PLN.

The HOMING PLUS Programme is executed by the Foundation for Polish Science and financed from European funds under the Operational Programme Innovation Economy 2007-2013.

More information at:  
<http://www.fnp.org.pl/en/oferta/homing-plus-2/>

We are looking for highly motivated undergraduate students to work on the project.
