

# Nencki Institute of Experimental Biology

**Laureate of the "Homing Plus" programme of the Foundation for Polish Science**

2016-08-22

---

Dr. Anna Suska from the Laboratory of Neurobiology at the Nencki Institute, headed by Professor Leszek Kaczmarek, became the laureate of the HOMING program, financed by The Foundation for Polish Science. Dr Suska is an electrophysiologist working on synaptic plasticity of the brain reward system, which is involved in development of addiction.
