

# Nencki Institute of Experimental Biology

## New information policy of the Nencki Institute

2011-12-16

---

Press releases are drafted in keeping with the standards for scientific reporting and including best quality illustrations (photographs and computer graphics). We have also established collaboration with Alpha Galileo service which will make news from Nencki available not only to journalists from Polish media but also to foreign scientific services. The press service is coordinated by Dr. Anna Wasik ([a.wasik@nencki.gov.pl](mailto:a.wasik@nencki.gov.pl)).
