

# Nencki Institute of Experimental Biology

**Prof. Agnieszka Dobrzyn among the members of the jury for the competition "Girls of the Future - in the footsteps of Maria Skłodowska-Curie", organized by the Ministry of Science and Higher Education**

2012-04-13

---

The competition aims to support talented young female researchers and to promote their scientific achievements. It is open to students of undergraduate, engineering and master's studies, who study science, natural sciences, technology or medicine, and in the course of study are involved in research projects or conduct their own research.
