**Prof. Agnieszka Dobrzyn has been appointed a chair of the "Mobility Plus" expert panel of the Ministry of Science and Higher Education**

2015-06-03

---

Prof. Agnieszka Dobrzyn from the Nencki Institute has been appointed as a chairwoman of the "Mobility Plus" interdisciplinary expert panel of the Ministry of Science and Higher Education. The "Mobility Plus" Program is a competition-based initiative addressed to scientific and academic staff as well as PhD students willing to conduct research in top research and academic centres abroad. Main responsibilities of the expert panel include evaluation of the applications submitted for the 'Mobility Plus' Program, ranking the successful ones, recommending the level of funding, as well as evaluating requests for amendments to the programme grant agreements. The panel has been nominated for 4 years (2015-2019).

For more information about the 'Mobility Plus' program see:
