**Published at: 2008-10-05 11:30 Opinion of the Scientific Council on the proposed reform of science**

2010-06-24

---

The Scientific Council of the Nencki Institute during its session on May 16th 2008 expressed its opinion on the government project of the reform of science and higher education in Poland. The Council decided to support the pro-reformatory resolution of the Scientific Council of The Institute of Biochemistry and Biophysics in Warsaw and the petition of the International Institute of Molecular and Cell Biology to actively participate in the discussion on the proposed reform.
