

Nencki Institute of Experimental Biology

START Program scholars from the Nencki Institute

2011-04-01

- Jan Kamiński (psychology) from the Laboratory of Visual System headed by Prof. Andrzej Wróbel
- Magdalena Lebiezińska (biochemistry) from the Laboratory of Bioenergetics and Biomembranes headed by Prof. Jerzy Duszyński
- Paweł Tacikowski (psychology) from the Laboratory of Psychophysiology headed by Prof. Anna Grabowska

The START Program is aimed at researchers, who in spite of their young age have achieved success in their respective fields. START scholarships are granted to recognize their up to date achievements and encourage their further professional development.

Criteria for granting the scholarships were scientific output of the candidates along with their scientific program.
