

# Nencki Institute of Experimental Biology

## STRATEGMED grants at the Nencki Institute

2016-05-10

---

Director of the National Centre for Research and Development has published the lists of projects which have qualified for financial backing in the III Competition of the programme: „Prevention and treatment of civilization diseases” – STRATEGMED.

Among the projects selected for funding are 4, in which members of the consortium carrying out the research are employees of the Nencki Institute:

*New anticancer compounds interfering function of telomeres.* prof. Ewa Sikora research team

*3D bioprinting of living pancreatic islets or insulin-produced cells into scaffolds of bionic pancreas.* prof. Agnieszka Dobrzyń research team

*Glioma diagnostics based on circulating tumor DNA.* prof. Bożena Kamińska research team

*Development of new methods for diagnosis and treatment of epilepsy and neurodevelopmental dysfunctions based on clinical and cellular models of mTOR pathway-dependent epilepsy.* prof. Bożena Kamińska research team
