The Magic of Big Blue at the Nencki Institute Hydrobiological Station in Mikolajki

2017-03-21

On Saturday, March 18th, 2017 at the Hydrobiological Station in Mikolajki took place the underwater movie show *The Magic of Big Blue* by Darek Sepiolo. Our guests have watched four films about the underwater world of: Australia and Oceania, the Galapagos Islands, Antarctica and Africa. The presentation of the diving equipment used in the coldest waters of the world and lecture about the Polish diving research conducted in the period of 2004-2010 on the Polish Antarctic "Arctowski" Station also were in the programme of this event.
