## The National Science Centre Grants ETIUDA and SONATINA for the Nencki Institute

2018-07-25

---

The National Science Centre has announced the ranking lists of projects approved for funding in 6th edition of ETIUDA and 2nd edition of SONATINA calls.

From the Nencki Institute financial support received:

### ETIUDA

- mgr Małgorzata Wierzba - *Role of emotion in cognitive control over memory - a behavioural and functional magnetic resonance imaging (fMRI) study.*
- mgr Karolina Stępnia - *Mapping of open chromatin and histone modifications in human gliomas.*
- mgr Łukasz Bożycki - *Participation of annexins and fetuin A in regulation of mineralization process*

### SONATINA

dr inż. Bartosz Adam Frycz - *The role of trace amine-associated receptor 1 in the regulation of alcohol addiction-related behaviors and structural alterations in dendritic spines within the central nucleus of the amygdala* (The research will be carried out in the Laboratory of Neurobiology, headed by prof. Leszek Kaczmarek).
