

Nencki Institute of Experimental Biology

The visit of the guests from CRDS/JST at the Nencki Institute

2016-03-30

On March 11th, 2016 the Nencki Institute hosted a delegation (Ms. Yuko Tsuda and Mr. Izumi Yamashita) of the Center for Research and Strategy Development/Sapan Science and Technology Agency of Japan. CRDS/JST is a "think tank" organization advising the Japanese government in terms of long-term policy research. In our Institute they visited the Centre for Neurobiology laboratories created within the Center for Preclinical Research and Technology (CEPT) project in the Operational

Programme Innovative Economy.
