Nencki Institute of Experimental Biology

"The young brain": 2018 Brain Awareness Week at the Nencki Institute

2018-02-26

From March 12-17th 2018, the latest edition of Brain Awareness Week will be held at the Nencki Institute of Experimental Biology PAS in Warsaw. Through the course of the event (March 12-16th), the most recent, groundbreaking achievements in the field of neuroscience, psychology and psychiatry will be presented, referring to scientific and practical aspects of brain development. We invite adults and students of all levels of higher education to participate. On March 17th, from 11.00, there will be games and shows addressed to children, students and adults, interested in mysteries of the brain and mind. At 15.30, there will be a special screening of the movie PHOTON (directed by Norman Leto, 2017). Brain Awareness Week is an educational event, aimed at enhancing the level of knowledge about the brain. The organizers of this great event are : The Nencki Institute of Experimental Biology PAS, Polish Neuroscience Society and The Committee of Neurobiology of the Polish Academy of Sciences.
