## "Wildlife Travels" at the Hydrobiological Station in Mikołajki

2017-08-23

---

On August 20th, 2017, as part of a series of meetings "Wildlife Travels" at the Hydrobiological Station in Mikołajki, Maciej Karpowicz PhD from the University of Białystok, talked about trips to the world's coral reefs and the biodiversity of these unique and fabulously colourful marine ecosystems. The lecture was accompanied by a demonstration of diving equipment. About 30 people attended the meeting.
